Lecture

Zoom
Webinar

The Economy of Japan Viewed from the Outside

This panel discussion will feature two distinguished Japanese economists from overseas. They will discuss the current situation of the Japanese economy and the challenges it faces. How do the 4D challenges (Depopulation, Deglobalization, Decarbonization, Debt) impact Japan's economy? How do fiscal and monetary policies interact with economic growth? What measures might the government take to mitigate risks and address these changes? This discussion will provide new insights into the Japanese economy from an international perspective.

2024. **8.23** [Fri.]
16:00-17:30 JST
